Overview 42" Door

Door is Reversible Handing. Determine which way the door will open prior to hanging the door and installing the handle.

Essential tools for door installation

Important Installation Note for the FROSTED GLASS door only: Once you determine which way the door will open- that will determine which end will be the TOP of your door to install the Roller brackets onto the TOP RAIL and ensures the smooth side of the glass will be to the front side of the door. The CLEAR door glass the same on both sides so the TOP RAIL is already pre-determined.
